About translate online

translate online is a component of i plus, which provides secure access to translation memory technology for businesses who wish to carry out some or all of their translation in-house – including the ability to share translation memories between internal and external translators if required.

- translate online is a user-friendly web interface which allows your translators to work from anywhere
- The advanced translation memory technology automatically stores every sentence and recognises repeated content, speeding up the translation process, saving money and resources
- The browser-based interface means that no installation is needed, while the system supports all file formats and live previewing
- Where a mix of internal and external translation processes is required, translate online provides a seamless solution
- Using i plus includes additional benefits such as a centralised document store, end-to-end encryption, customisable user permissions and flexible reporting

Our pricing fits all types of clients. The monthly subscription is based on the number of users accessing translate online:

Number of users	GBP	EUR	USD	DKK	SEK
1 to 5	199.00	239.00	339.00	1,790.00	2,190.00
